Subject: PILOT

Leslie, Now that I have read and thought about the Indiana Code concerning PILOT that Eddie provided and discussed this issue with several other Council members in the last few days, I am requesting a formal calculation of the PILOT fee and related supporting documents from someone qualified to prepare it who is willing to sign off on their calculation that it complies with Indiana Code. This issue has received a lot of attention and I believe is being closely monitored that I concluded having proper supporting documentation is very important.

I realize this calculation sets the maximum amount that may be transferred to the general fund if the legislative body so elects.

Earl
